Petition: Four Day / Flex Time Work Week

The members of CSEA Unit 9200, the unionized employees of Westchester County government, endorse the concept of four day work weeks, also called flex time, or compressed time, as a means to give some relief to the ever-increasing cost of commuting long distances to their work locations in light of rising gasoline prices. Our members find it extremely difficult to pay the cost of gasoline to commute to work from our homes in and outside Westchester County.

This petition calls for the mandatory implementation of the four day work week in **ALL** County departments. If a County employee wishes to participate, that employee would be given the opportunity by requesting to start a four day work week. The normal number of hours would still be required each week but would be performed in 4 days.

Many County job duties would not be adversely impacted by the implementation of this four day work week policy that is successfully being used in several County departments. This petition calls for that policy to be implemented in **ALL** departments.
This policy would also directly address the issue of helping to reduce the carbon footprint and the global warming impact of Westchester County.
