

**Unit 9200 CSEA Committees:** This is a list of the committees that we would like to form with our members. These committees are open to any CSEA member who wishes to participate (upon appointment from CSEA Unit 9200 President Jack McPhillips).

Please contact the CSEA Unit 9200 office @ 914-995-2151 to sign on and get further information.

*The purpose of all committees is to improve the working conditions for all of our members in all departments and at Westchester Community College.*

### Agency Fee Payer Committee

This committee will be responsible for contacting everyone on the Agency Shop list to enroll them in our union, Unit 9200 CSEA. This committee will meet once per month. Agency Fee Payers are employees who pay their dues but have never enrolled in the union by signing an enrollment card.

### Contract Campaign Committee

This committee will consist of at least one person from each department (more from the larger departments). This committee *will not* meet with management, but will meet with the negotiating committee immediately after negotiations to get an update and report back to our members in their department or at Westchester Community College. This committee will meet as needed.

### Day Care Committee

This committee is designed to work with Westchester County and Unit 9200 to assist our members with affordable child care. This committee meets once per month.

### Grievance Committee

Members of this committee will review all the grievances filed by the unit and assure the timeliness of the responses to the supervisors, department heads and County Attorney. This committee meets as needed.

### Hazardous Risk/Contagious Material Committee

Members of this committee will investigate any circumstances that might hurt our personal health due to any Hazardous Risk/Contagious Material. This committee will meet when needed.

### Health & Safety Committee

This committee will investigate all complaints and issues related to the Health & Safety of our members. This committee will meet once per month.

### Health Benefits Committee

This committee will meet to investigate any situations where a member is denied coverage for any medical or dental services. This committee will meet once a month.

### Modified Work Week / Flex Time Committee

This committee was designed to assist our members with management to design Flex Work Schedules and Modified Work Weeks. This committee will meet as needed.

### Multi Cultural Committee

The Multi Cultural Committee is exactly what its name states. We want to acknowledge our vast diversity in CSEA and participate in their celebrations. This committee will meet as needed

### Orientation Committee

First impressions are very important, and as such, this committee is essential to the Unit 9200 CSEA. This committee will meet every other Monday to put together an information packet to give to all new CSEA members. In addition, someone will speak to the new employees during orientation and explain exactly what CSEA is, give a brief history of our union and what we negotiate for them

## Parking Committee

This committee will meet with management to discuss the parking issues throughout Westchester County. This committee will meet as needed

## Political Action Committee

This committee will meet as needed to discuss possible political positions and endorsements that have a direct impact on our union. They also will discuss incumbents and candidates for all political offices.

## Public Relations/Communications Committee

This committee will be responsible for a unit newsletter, as well as working with other committees to get some name recognition for Unit 9200. This committee will meet once per month.

## Scholarship Committee

This committee will be formed to assist other committee members in fundraising and distributing scholarships to worthy applicants. The committee will form guidelines and qualifications for candidates. This committee will meet as needed

## Uniform Committee

This committee will meet to discuss any uniform issues (including shoes and winter jackets) for those members who are required to wear uniforms. This committee will meet as needed.

## Women's Committee

This committee will discuss all issues that affect all women, not just our members. They will work closely with other committees to help the women in our unit, no matter what pay grade they are. This committee will meet once a month, and both men and women are invited to participate on the committee.

## Labor/Management Committees

These committees are designed for our members to have a direct line of communication with management, on any level. Contractually there should be 4 members from Labor and 4 members from management. They will discuss all issues brought to the table by either side, and they will meet when either side requests.

### Corrections

### Environmental Facilities
